

Capturing The Moment *ctm Photography*

Please dress comfortably! First and foremost, we'll need you to be comfortable, as you'll be moving around, especially in on-location sessions. Dressing comfortably includes wearing comfortable shoes! You may bring clothing and accessory changes with you.

Solid colors work best. If there's a color you wear that you get compliments in, it will probably photograph very nicely! Stay away from busy prints and patterns. Horizontal stripes are never flattering. Jewel tones such as ruby red, cobalt blue, and emerald all photograph very well.

Plan to wear your hair in a style you're comfortable with. Guys should NOT have a fresh hair cut. If you need a trim, have it done about a week before.

Make sure you get a good night's rest. Relax and be ready for a great portrait session!

Senior Portrait Clients:

By all means bring props! Hats, stuffed animals, vehicles (car / truck / motorcycle / bike / most anything with wheels). Are you a musician? Bring your instrument. Bring a friend, bring a pet! We're open to most anything. Please let us know what you're intending on using as a prop in case we need to adjust any lighting or studio equipment.

When to reschedule:

We understand that life's unpredictable. Please, whenever possible, allow 24-hours to reschedule your shoot. Sessions that are a "no-show" will forfeit their deposit. Please call to reschedule if you are not feeling well. Even slight discomfort will show. Sunburn is difficult to retouch and is a valid reason to reschedule.
